

Greetings!

I stopped by to share a great money & energy-savings idea with you; it's called ReCharge America, Home Energy Savings Made Easy. It is an effort designed to help you save as much as \$600 (or maybe more) a year on your energy costs and support President Obama's call to Renew America together.

In just 10 easy steps you can cut your energy bills and help make our country more energy efficient and independent. I just did it at my house -- it only took me a couple of hours.

Interested? I would be happy to help you save energy by assisting you with the 10 easy steps in your home. You can call me or email, all my information is below.

You can also get more information & your own downloadable ReCharge America Home Energy Savings kit at www.rechargeamerica.org.

You might ask, "why am I doing this?" This is why.

You can save as much as \$600 a year or more on your energy bills. Also, saving energy is one of the most important things we Americans can do right now to help our nation and ourselves. Over 40% of our energy use is in our homes and buildings, so taking some easy steps at home will both save you money and help America.

The first step is for you tune up your home. Start saving today. This is just the beginning!

Let me know if I can help!
